

project update

ocean beach master plan

public feedback to date, Sept 2011

overall vision statement

**“to knit the unique assets and experiences of ocean beach
into a seamless and welcoming public landscape, planning for
recreation, environmental conservation, sustainable
infrastructure, and long-term stewardship”**

7 focus areas

- ✓ ecology
- ✓ utility infrastructure
- ✓ coastal dynamics
- ✓ access + connectivity
- ✓ image / character / culture
- ✓ uses / activities / program
- ✓ management + stewardship

ecology**coastal dynamics****utility infrastructure**

Restore and establish conditions that support thriving biological communities.

1. Biodiversity & ecological functions on land, water, and intertidal zones

-2	-1	0	1	2
(degrades)				(improves)

2. Habitat for key species (plovers, bank swallows)

-2	-1	0	1	2
(degrades)				(improves)

3. Ecological connectivity

-2	-1	0	1	2
(degrades)				(improves)

Identify a proactive approach to coastal management, in the service of desired outcomes.

1. Adaptable and effective response to erosion, storm surges and sea-level rise

-2	-1	0	1	2
(degrades)				(improves)

2. Requirement for on-going interventions

-2	-1	0	1	2
(increases)				(reduces)

3. Impact to other focus areas

-2	-1	0	1	2
(negative)				(positive)

Evaluate utility plans and needs in light of coastal hazards and uncertainties, and pursue a smart, sustainable approach.

1. Water quality management (stormwater, wastewater, combined-sewer overflows)

-2	-1	0	1	2
(degrades)				(improves)

2. Flooding prevention (stormwater run-off)

-2	-1	0	1	2
(degrades)				(improves)

3. Management of the investment in core utility facilities (treatment plant, transport box, Lake Merced tunnel...)

-2	-1	0	1	2
(negative)				(positive)

**access +
connectivity**

Provide seamless and fluid connections to adjacent open spaces, the city, and the region.

1. Pedestrian and bicycle circulation along north/south corridors

-2	-1	0	1	2
(degrades)				(improves)

2. Pedestrian & bike connections to adjacent open spaces, streets & transit network

-2	-1	0	1	2
(degrades)				(improves)

3. Traffic flow and parking system

-2	-1	0	1	2
(degrades)				(improves)

image + character

Preserve and celebrate the beach's raw and open beauty, while welcoming a broader public.

1. Image of Ocean Beach

-2	-1	0	1	2
(degrades)				(improves)

2. Natural feel and experience of the beach (dunes, wildlife, surf...)

-2	-1	0	1	2
(degrades)				(improves)

3. Experience and character of the urban edge along Ocean Beach

-2	-1	0	1	2
(degrades)				(improves)

uses + activities + program

Accommodate the diverse activities people enjoy at the beach, managed for positive coexistence.

1. Activities and amenities

-2	-1	0	1	2
(degrades)				(improves)

2. Surf conditions

-2	-1	0	1	2
(degrades)				(improves)

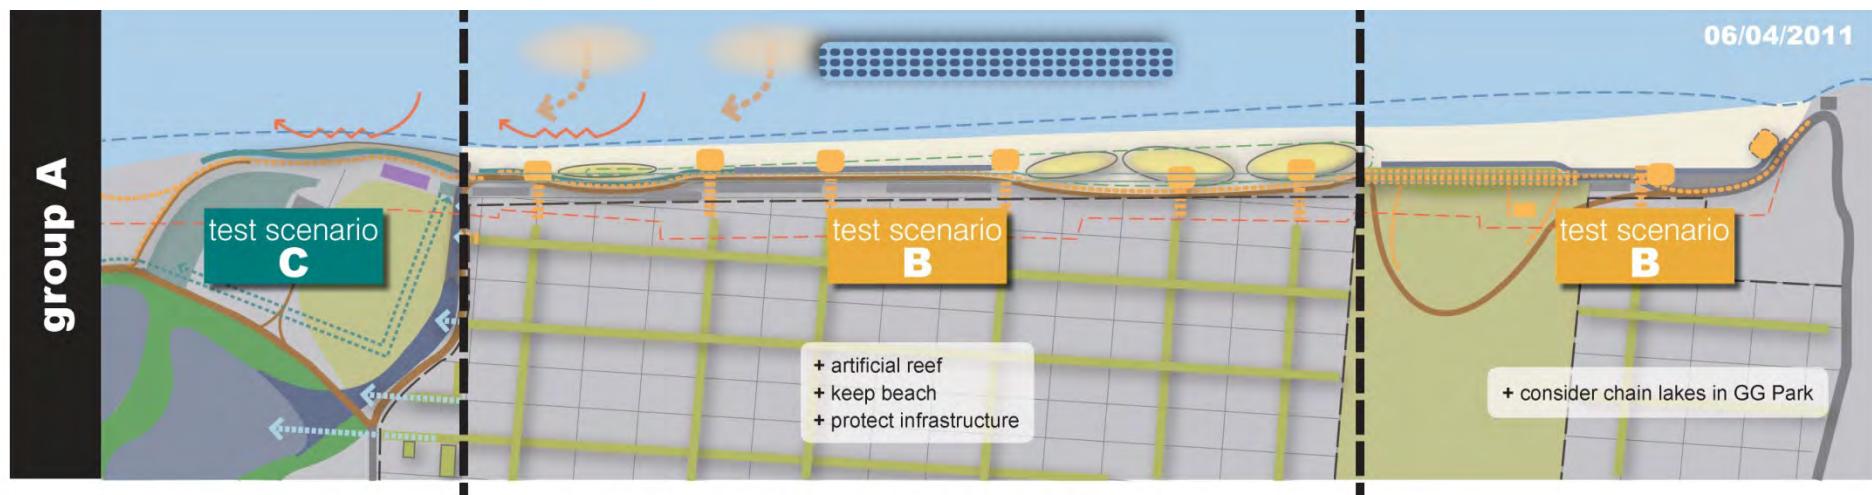

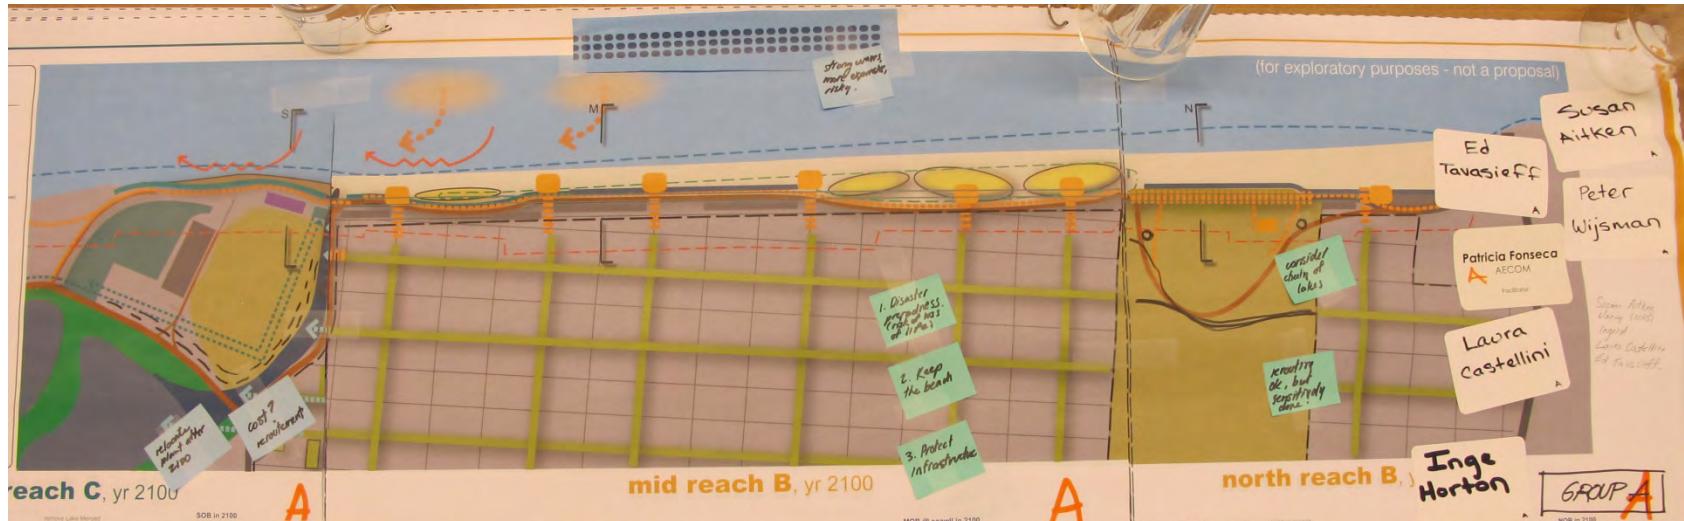

3. Compatibility of uses

-2	-1	0	1	2
(degrades)				(improves)

workshop 2 breakout session : hybrid scenarios

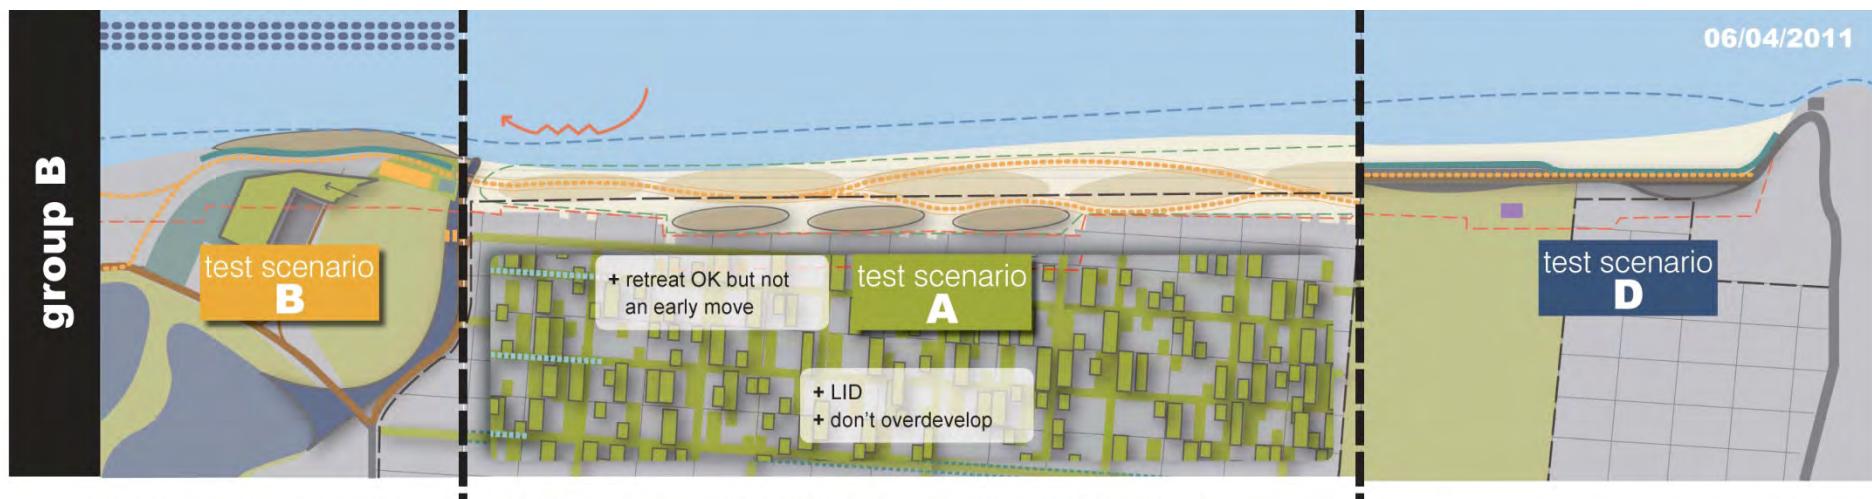

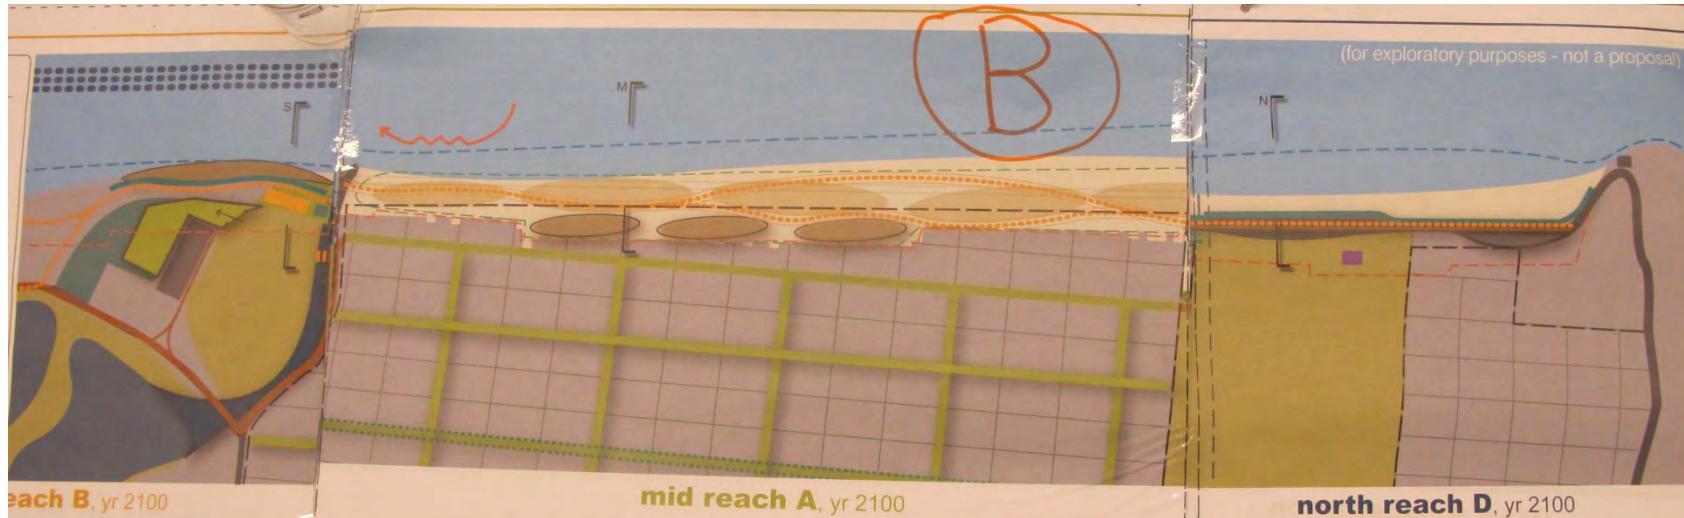

results

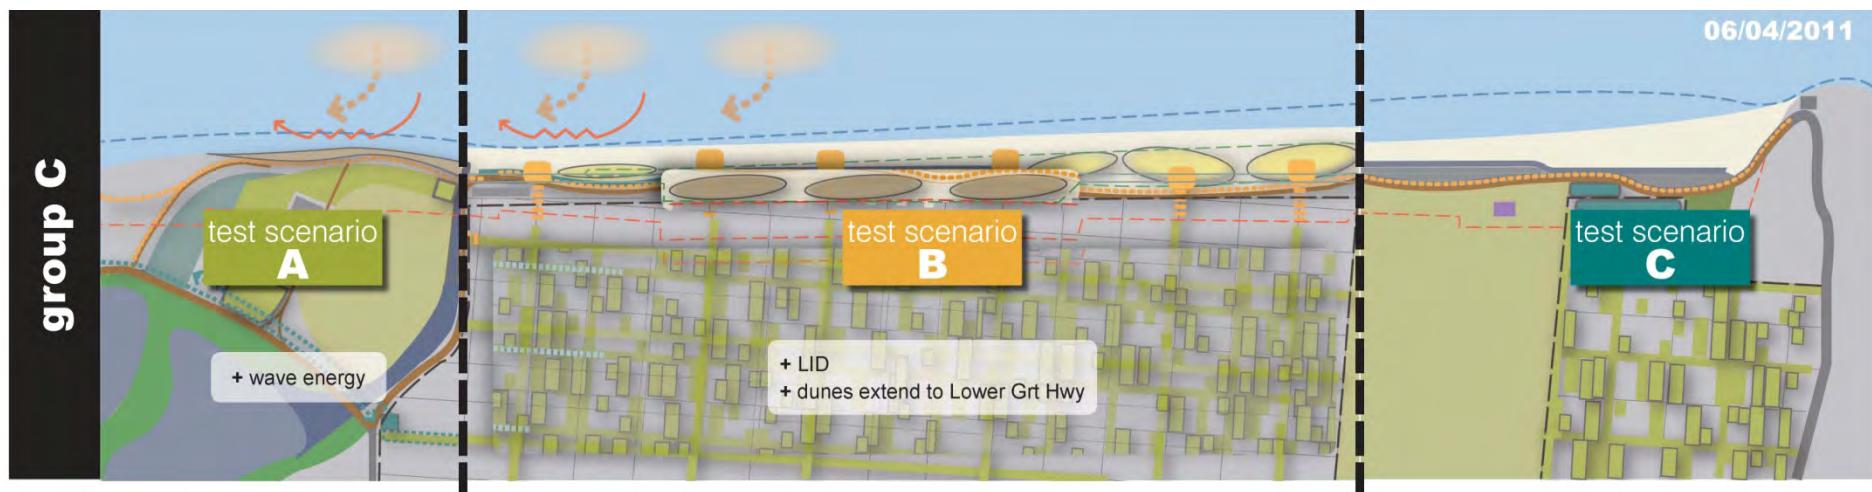

Developed with input by the following participants during the Ocean Beach Master Plan's Public Workshop 2 (June 4, 2011):

GROUP A: Ed Tavasieff, Susan Aitken, Peter Wijsman, Laura Castellini, Inge Horton, Nancy (NPS), Ingrid [FACILITATOR: Patricia Fonseca]

Developed with input by the following participants during the Ocean Beach Master Plan's Public Workshop 2 (June 4, 2011):

GROUP B: Margaret Parker, Andrew Linford, Maggy Frias, Matt Zlatunich /FACILITATOR: Megan Walker/

Developed with input by the following participants during the Ocean Beach Master Plan's Public Workshop 2 (June 4, 2011):

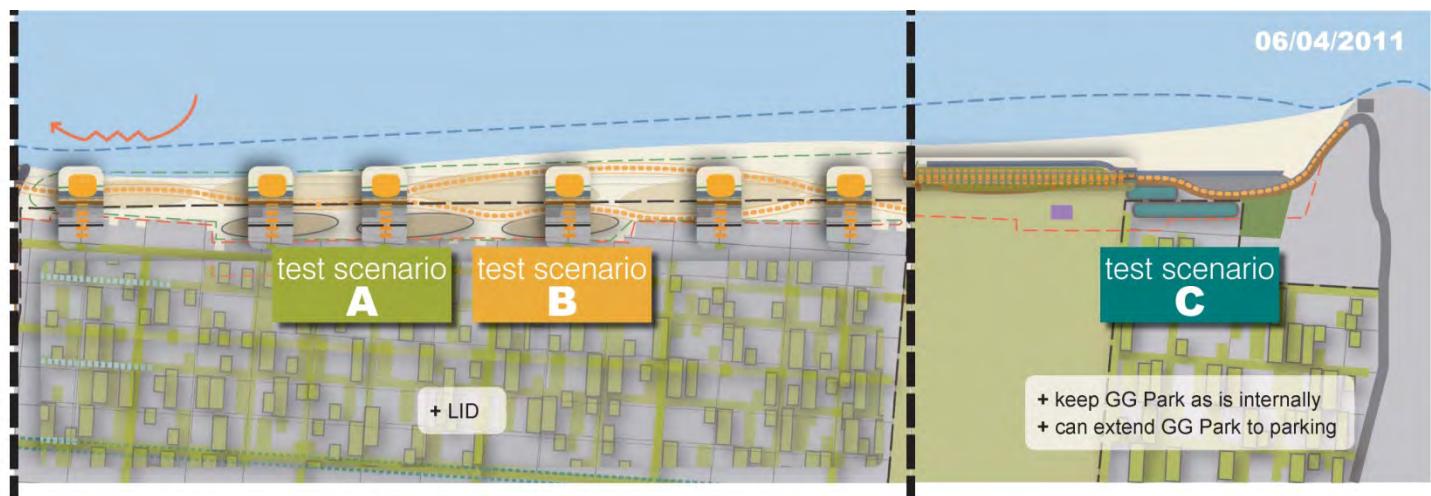

GROUP C: Greg Gordon, Jeanine Elzie, Amy Myer, Patrick Cody, Al Fenton *[FACILITATOR: Alma Du Solier]*

group D

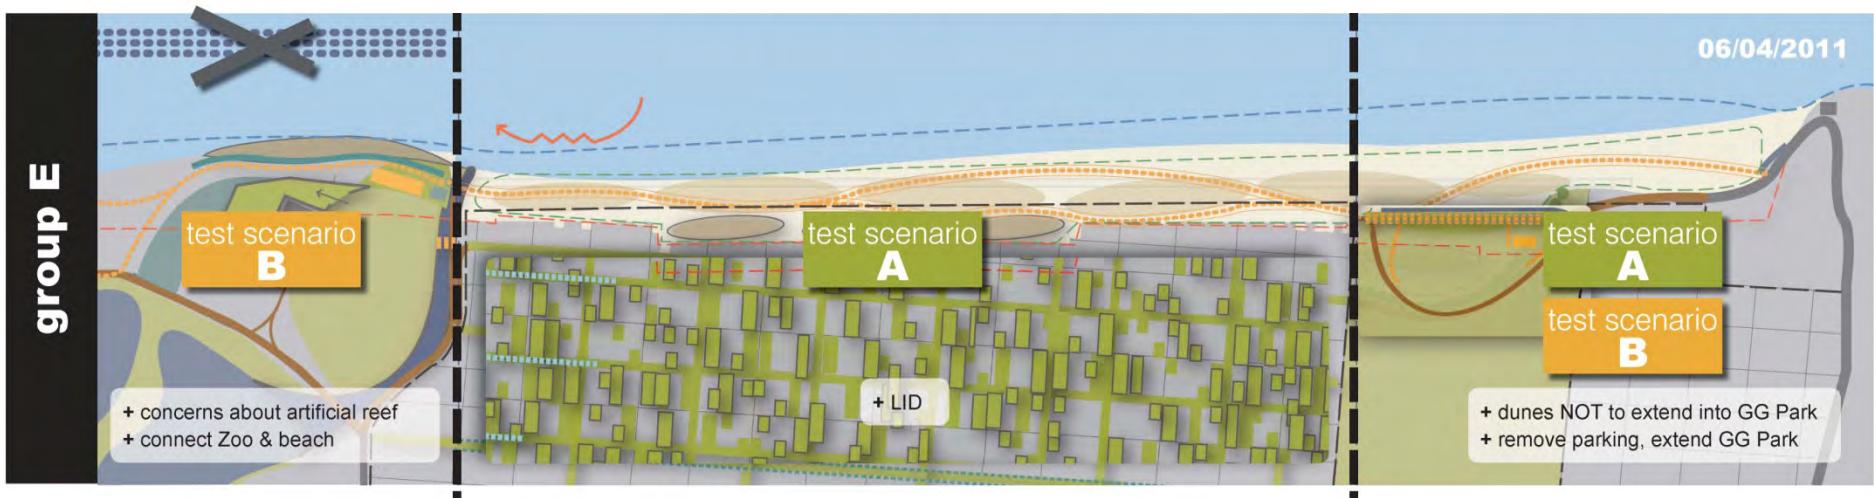

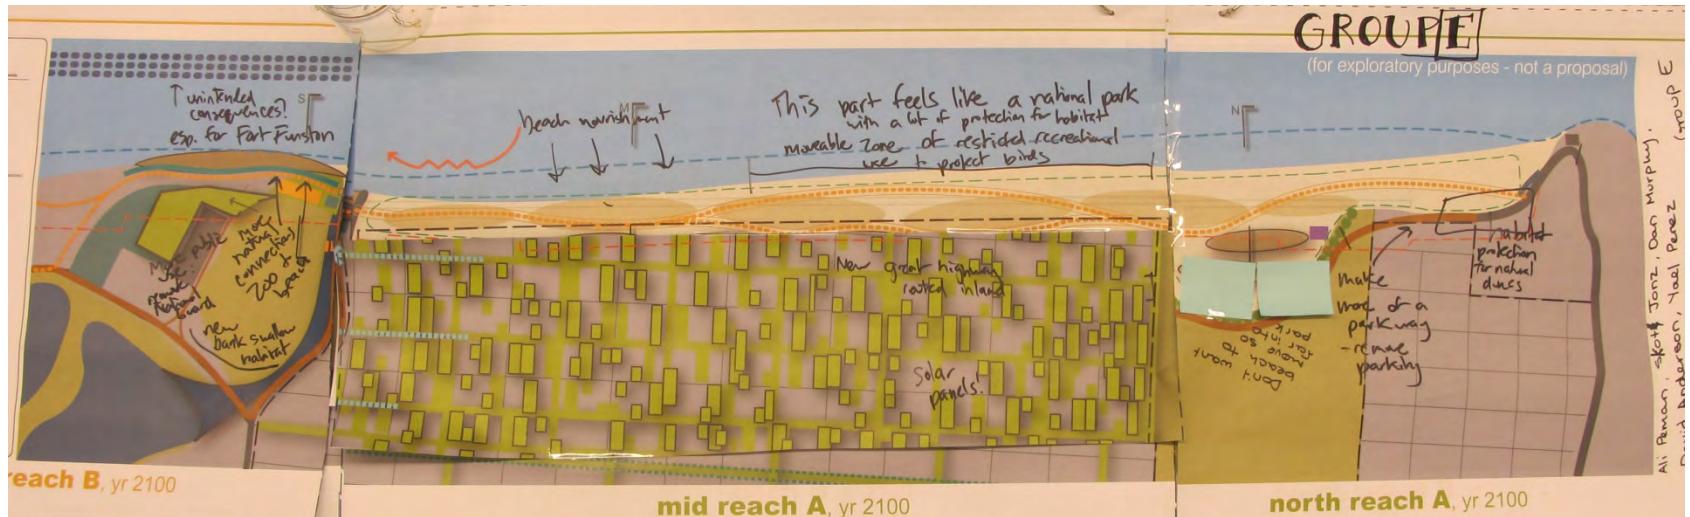

test scenario
?

(undecided group)
+ protect treatment plant
+ wind & wave energy

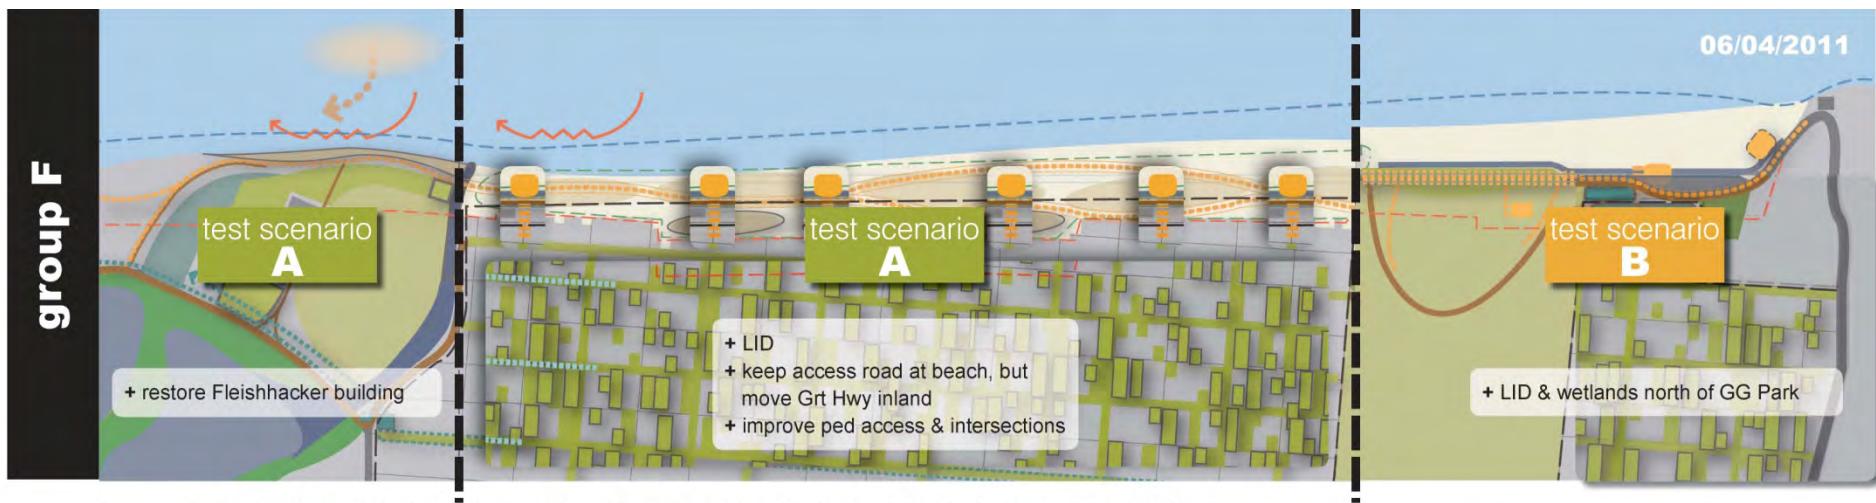

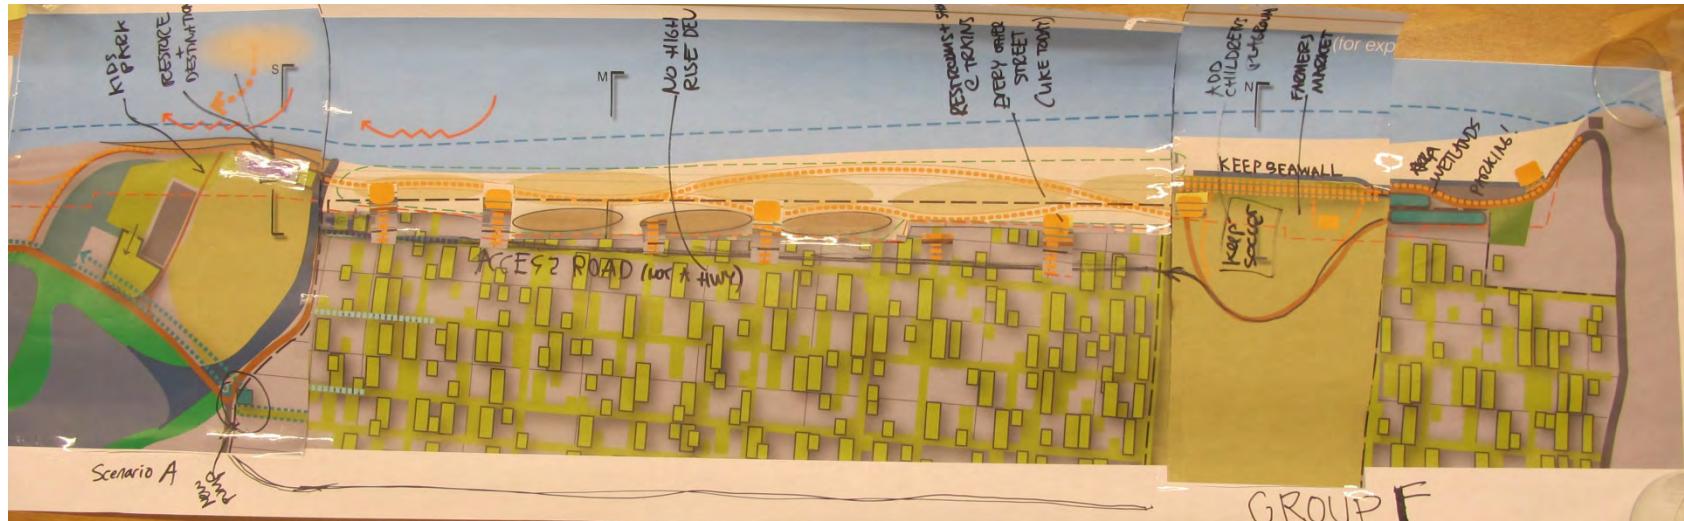

Developed with input by the following participants during the Ocean Beach Master Plan's Public Workshop 2 (June 4, 2011):

GROUP D: Steve Ferrero, G. L. Hastings, Pat Conroy, Lyn Stein, Katherine Howard, Jeff McGowan [FACILITATOR: Claire Bonham-Carter]

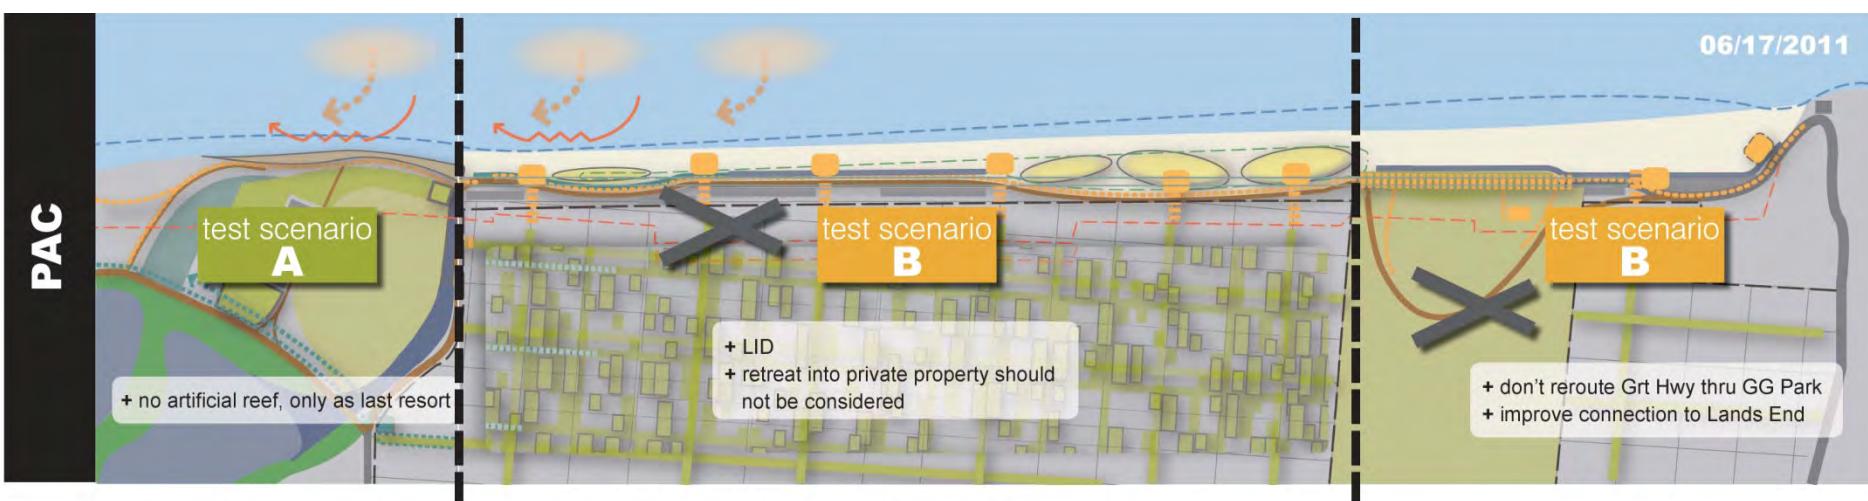

Developed with input by the following participants during the Ocean Beach Master Plan's Public Workshop 2 (June 4, 2011):

GROUP E: Ali Peman, Skot Jonz, Dan Murphy, David Anderson, Yael Perez, Liza Hadden [FACILITATOR: Laura Tam]

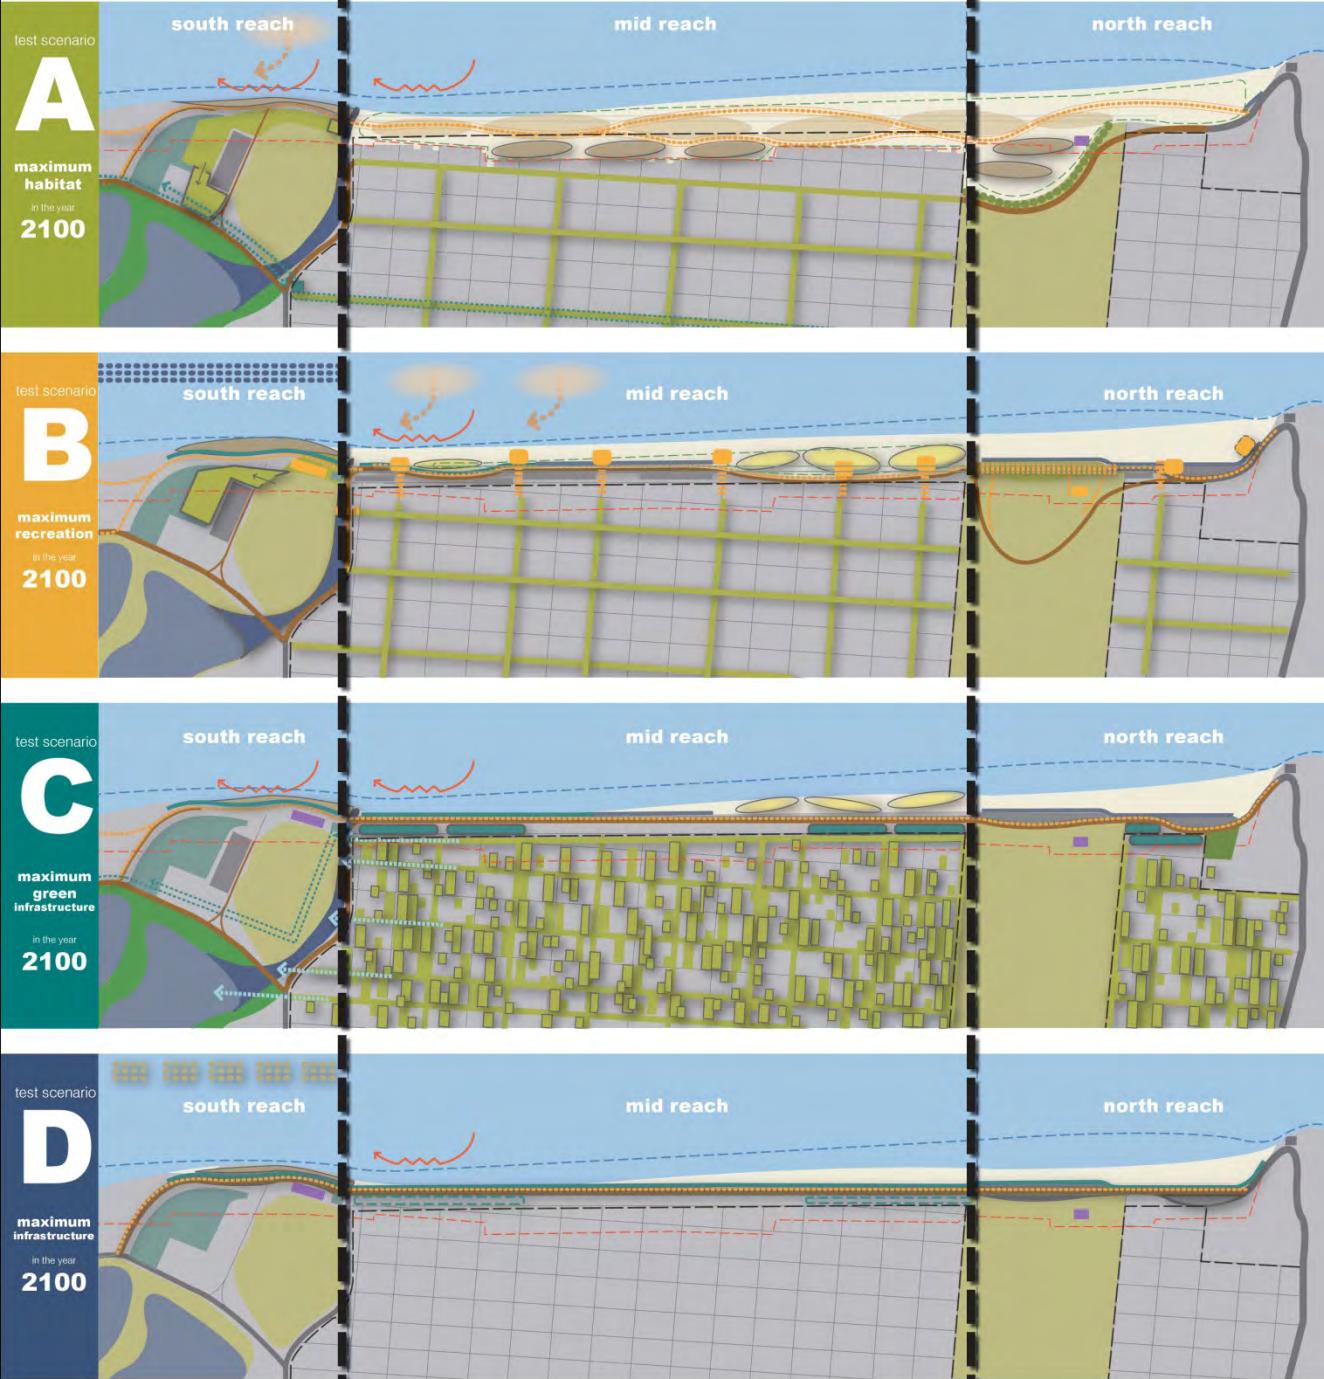

Developed with input by the following participants during the Ocean Beach Master Plan's Public Workshop 2 (June 4, 2011):

GROUP F: Brian Aviles, Bill McLaughlin, Dan Robinson, Anita Bowman, Lisa Beyer, Michael Martin, Ilana Bar-David /FACILITATOR: Amanda Bensel

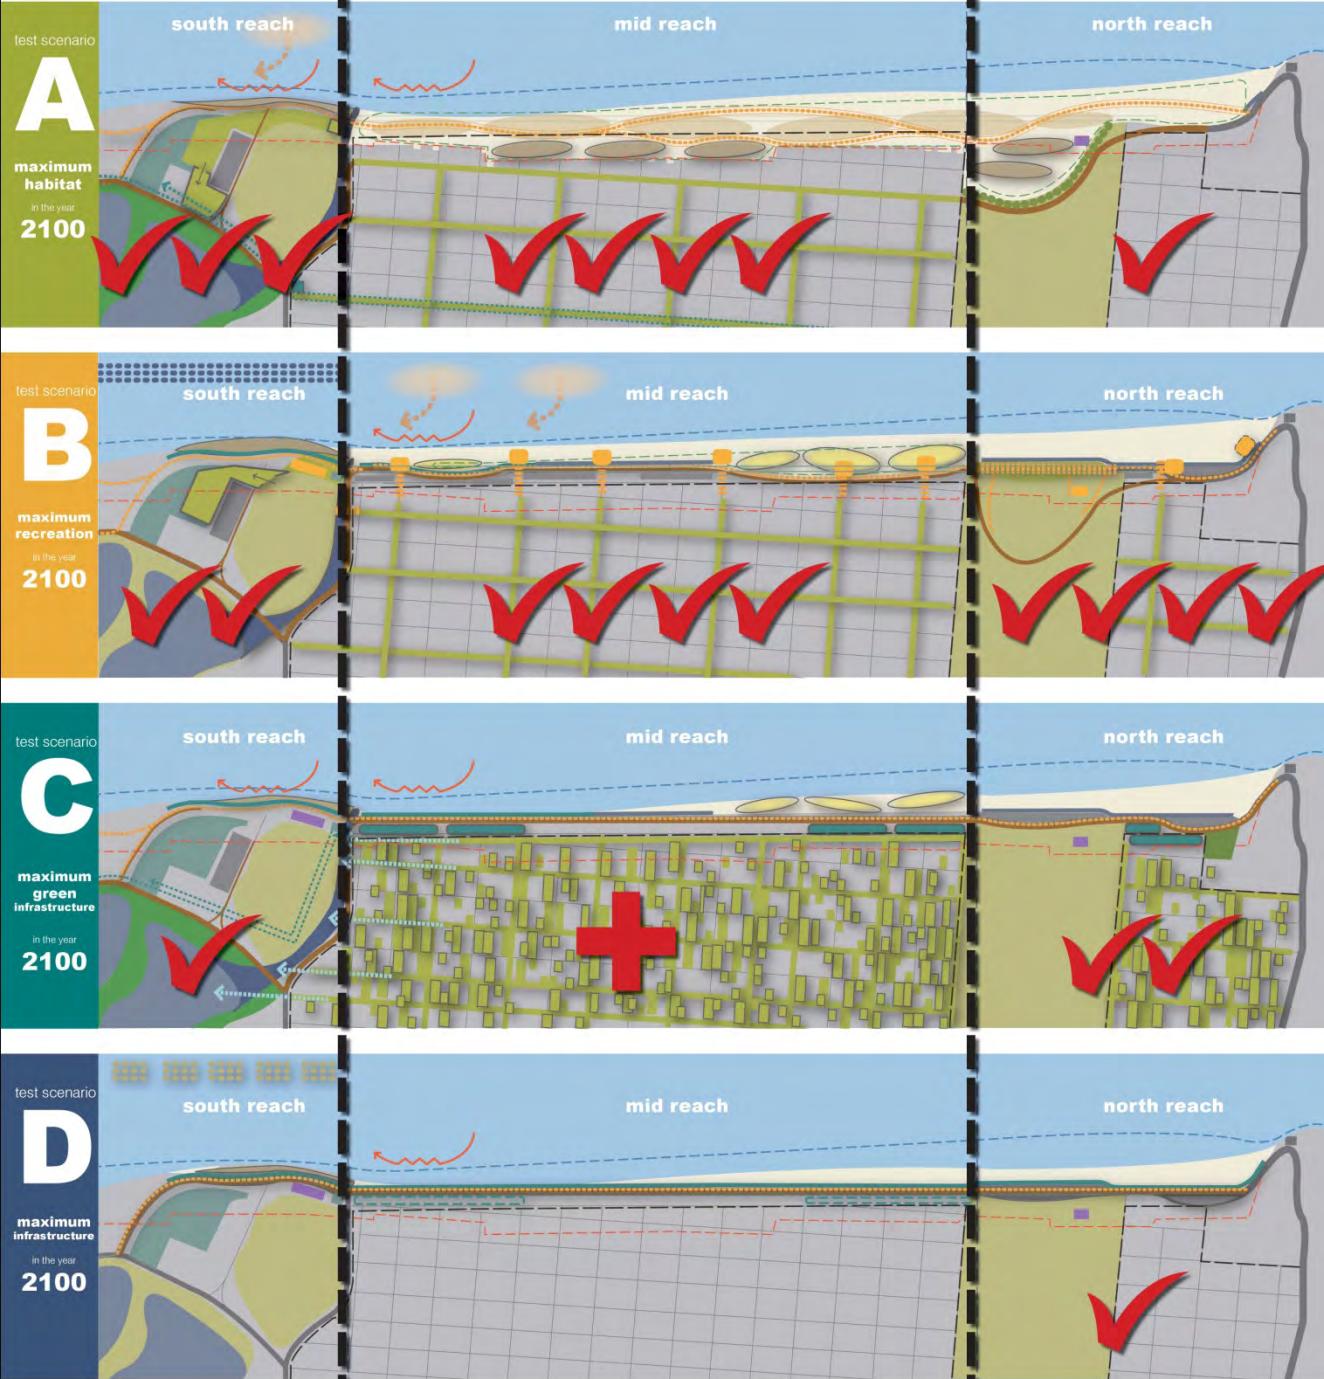

Developed with input by the following participants during the Ocean Beach Master Plan's PAC meeting #4 (June 17, 2011):

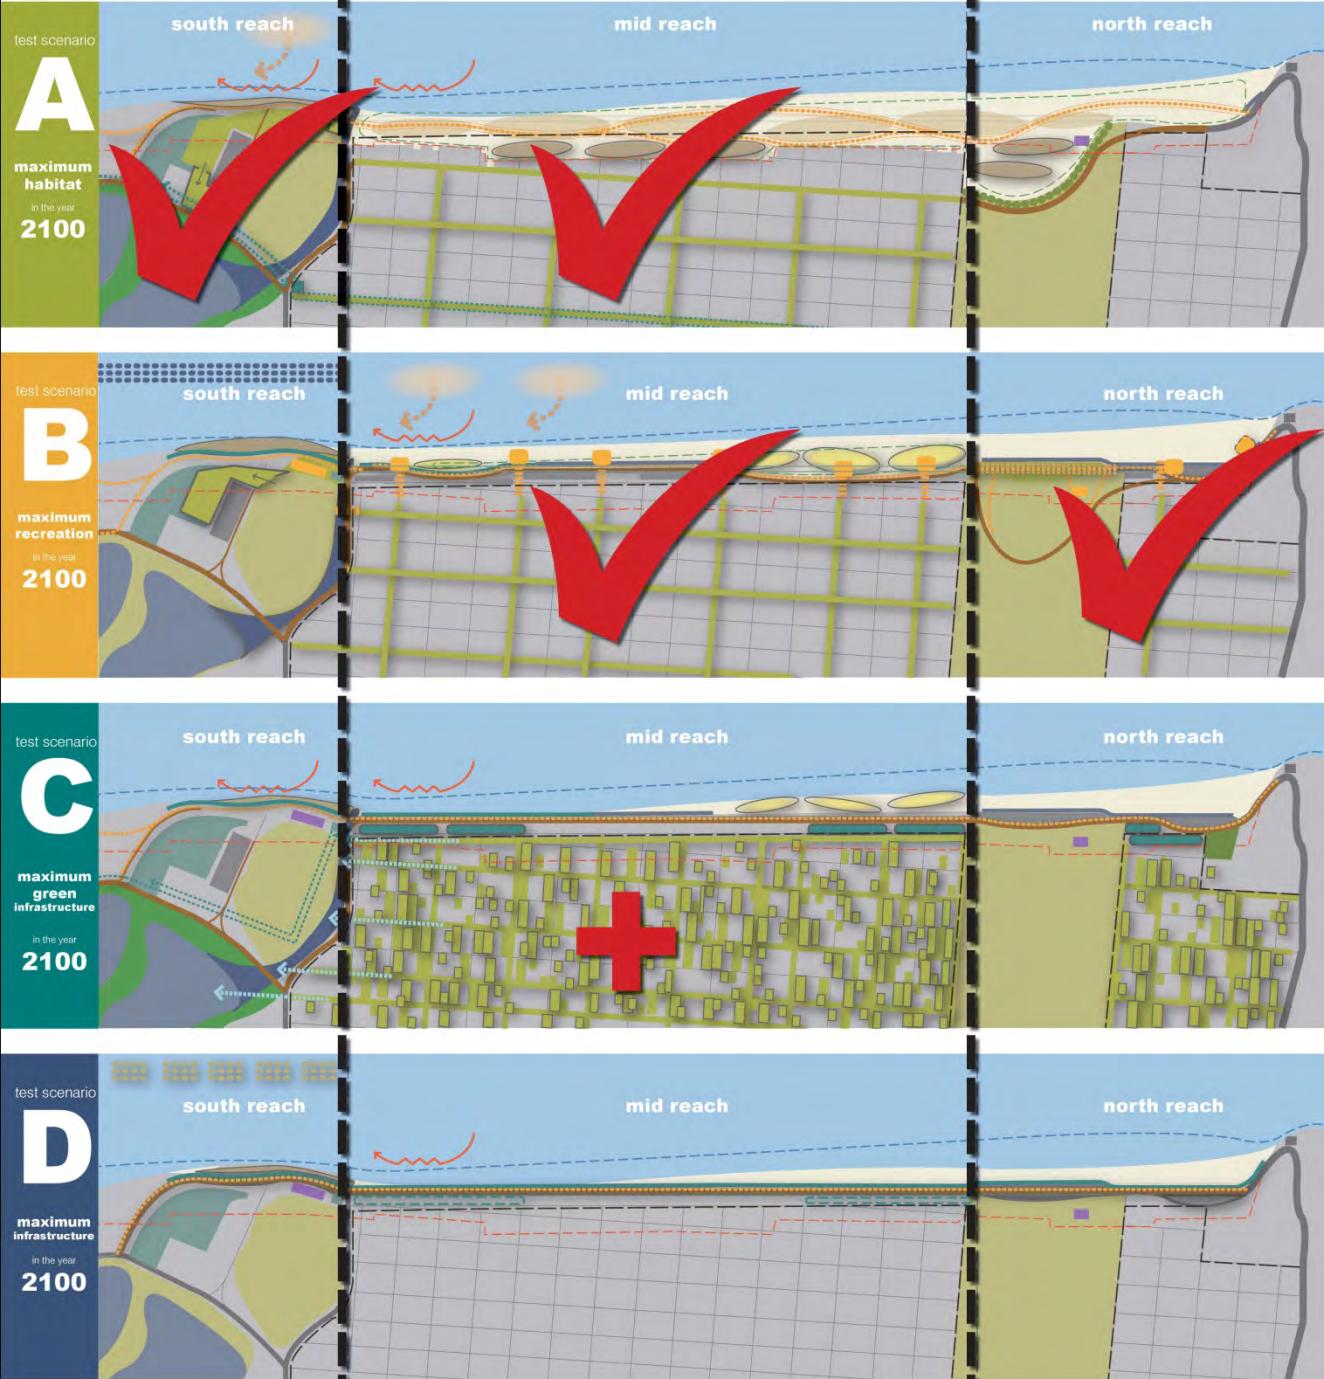

PAC: PAC members |**FACILITATOR:** Alma Du Soleir, Megan Walker

✓ test scenarios

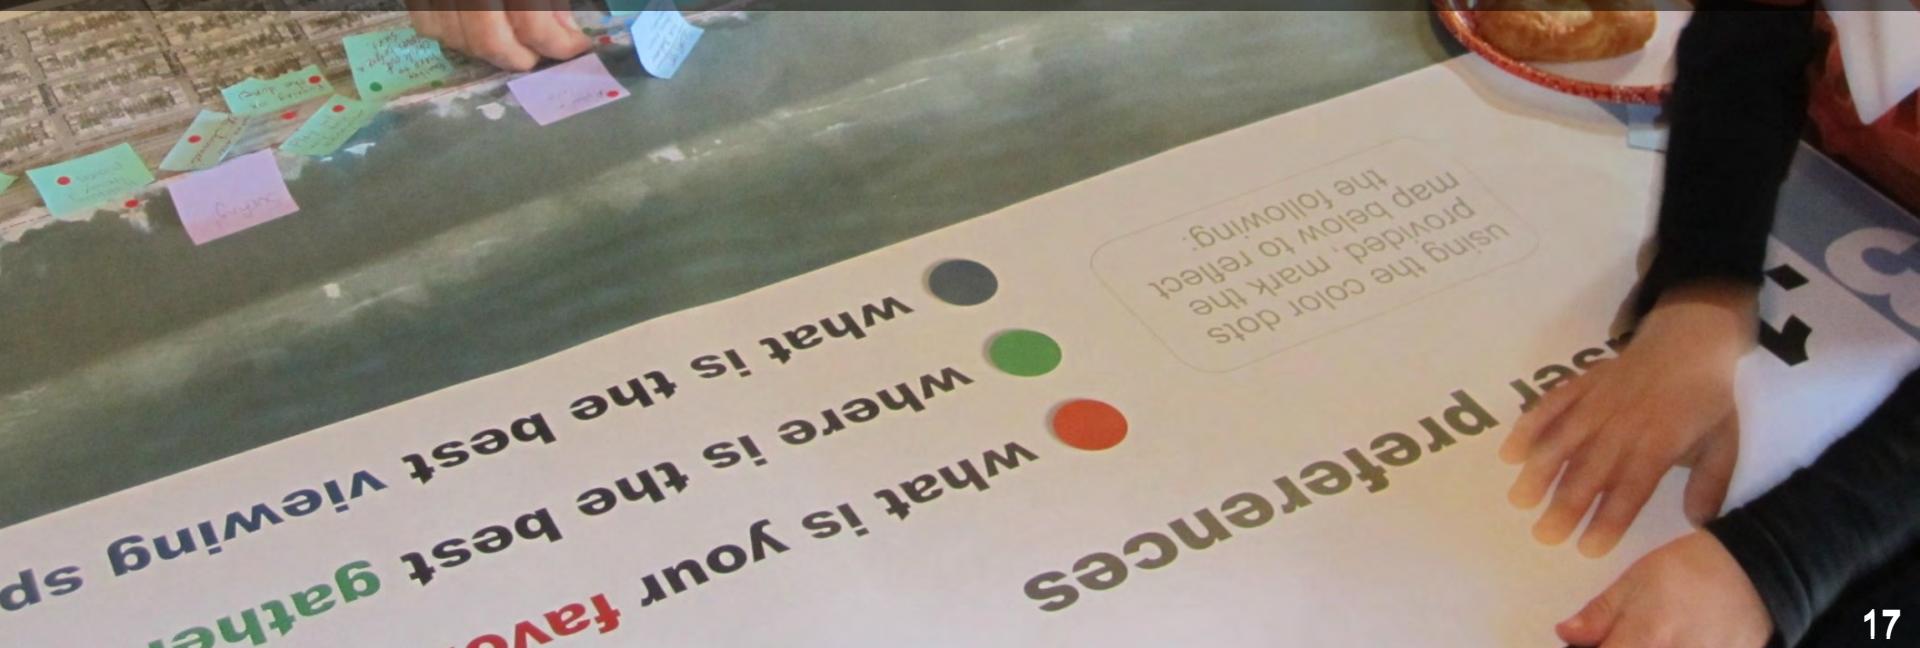

✓ base scenario used per reach

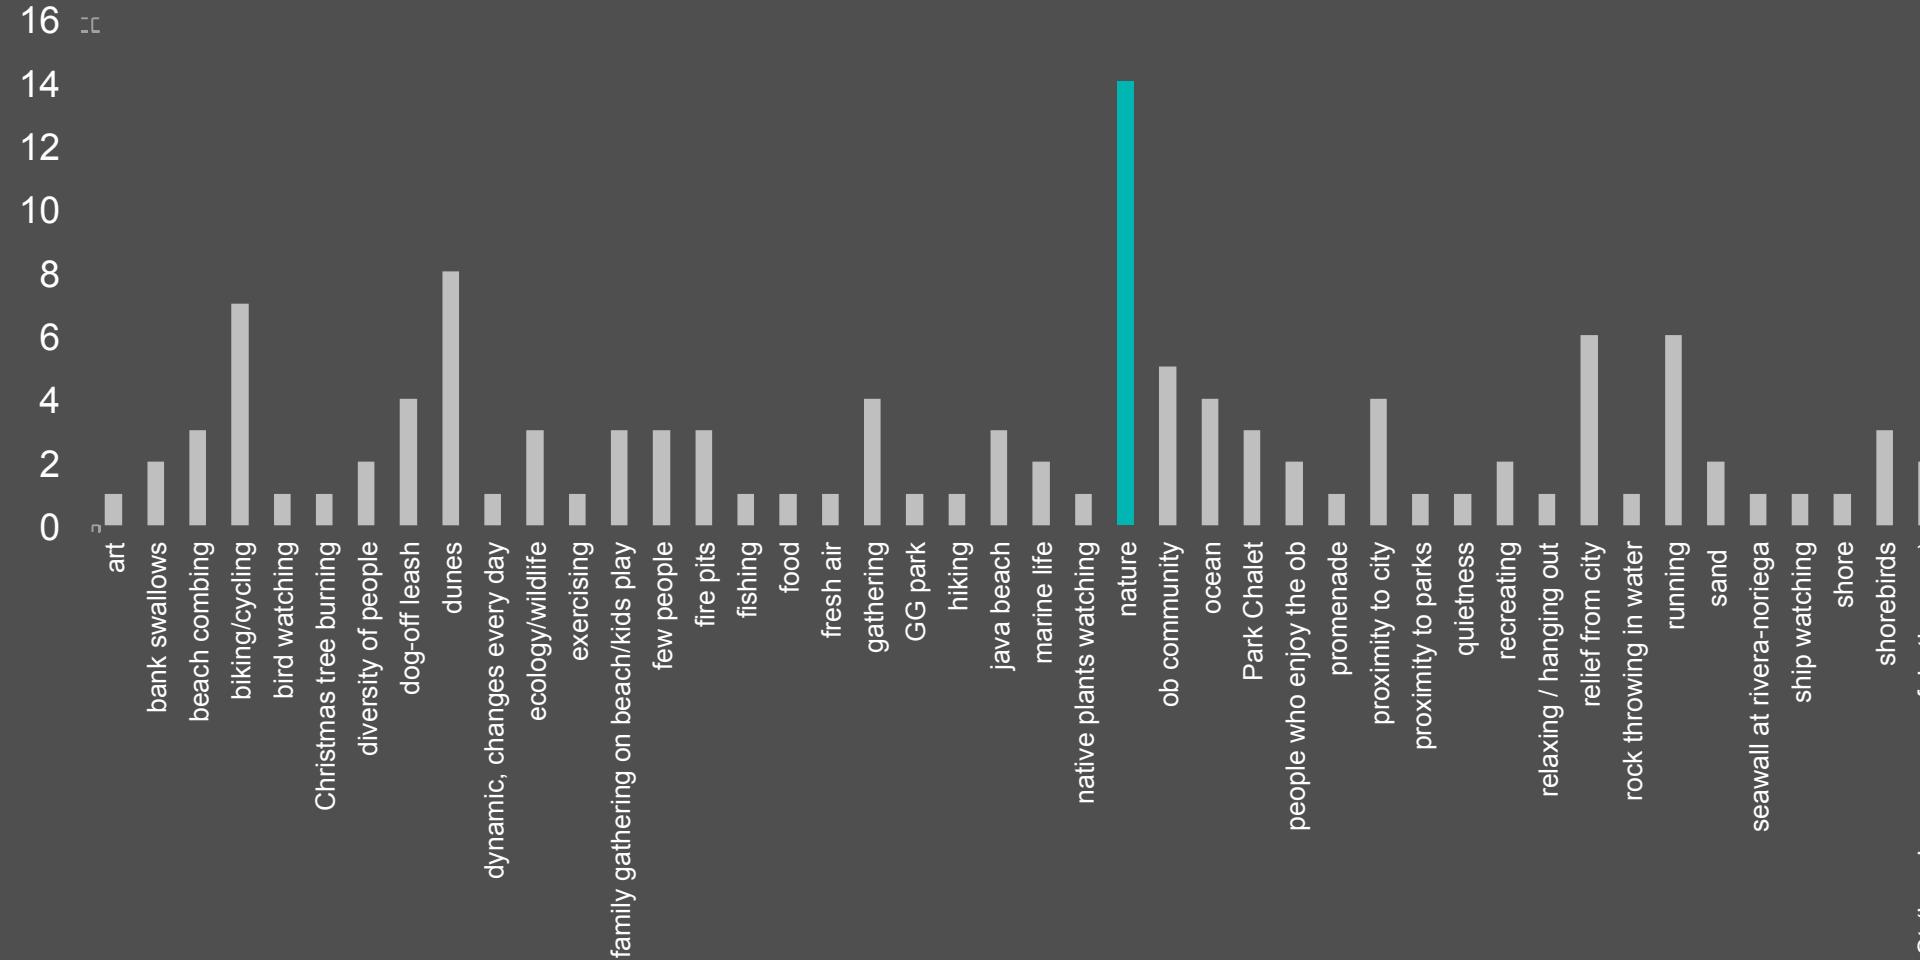

✓ test scenarios preferences

workshop 1 station 3 : user preferences

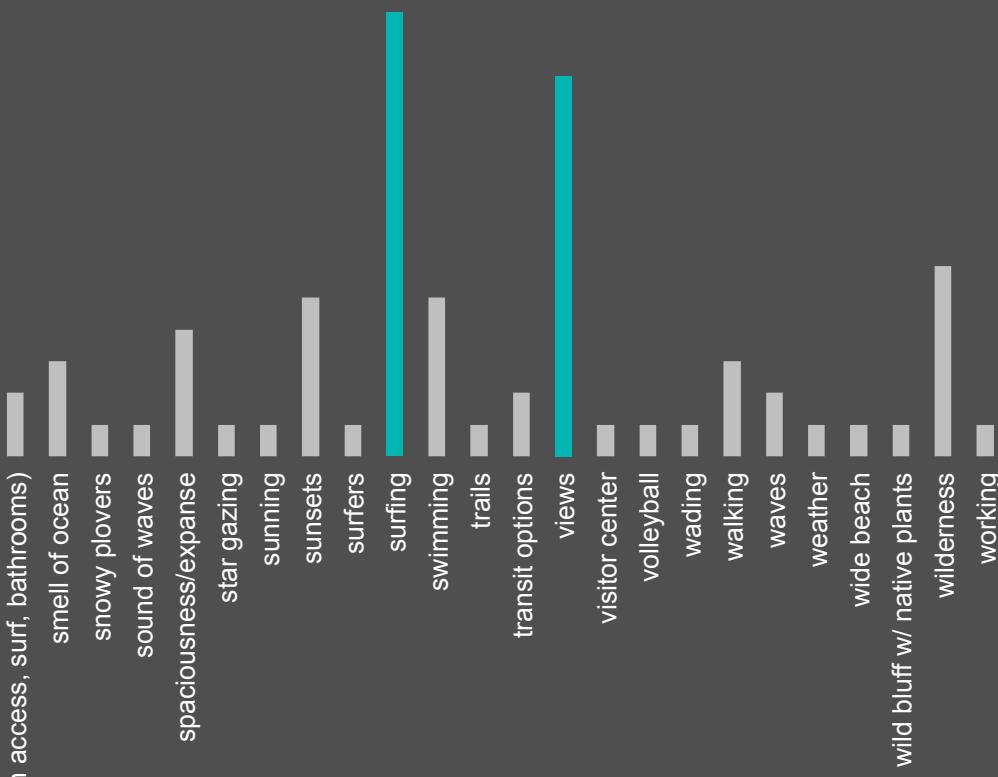

results

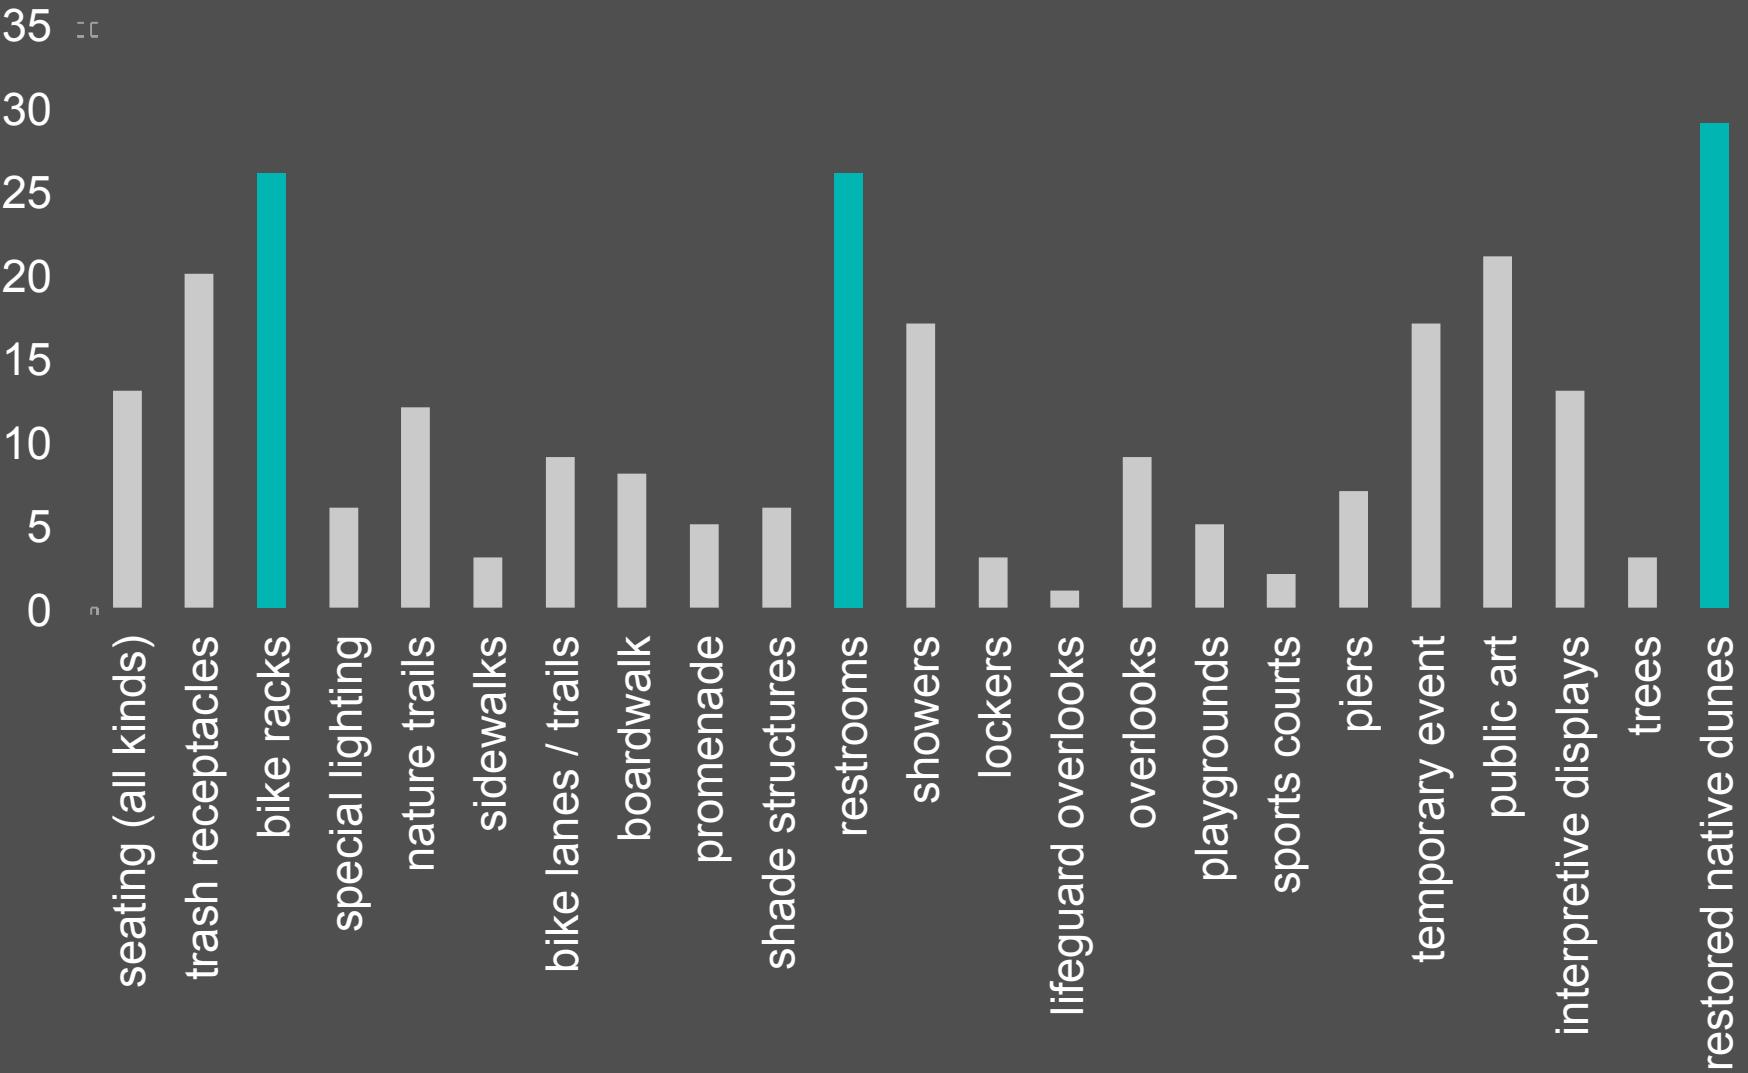

user preferences

user preferences

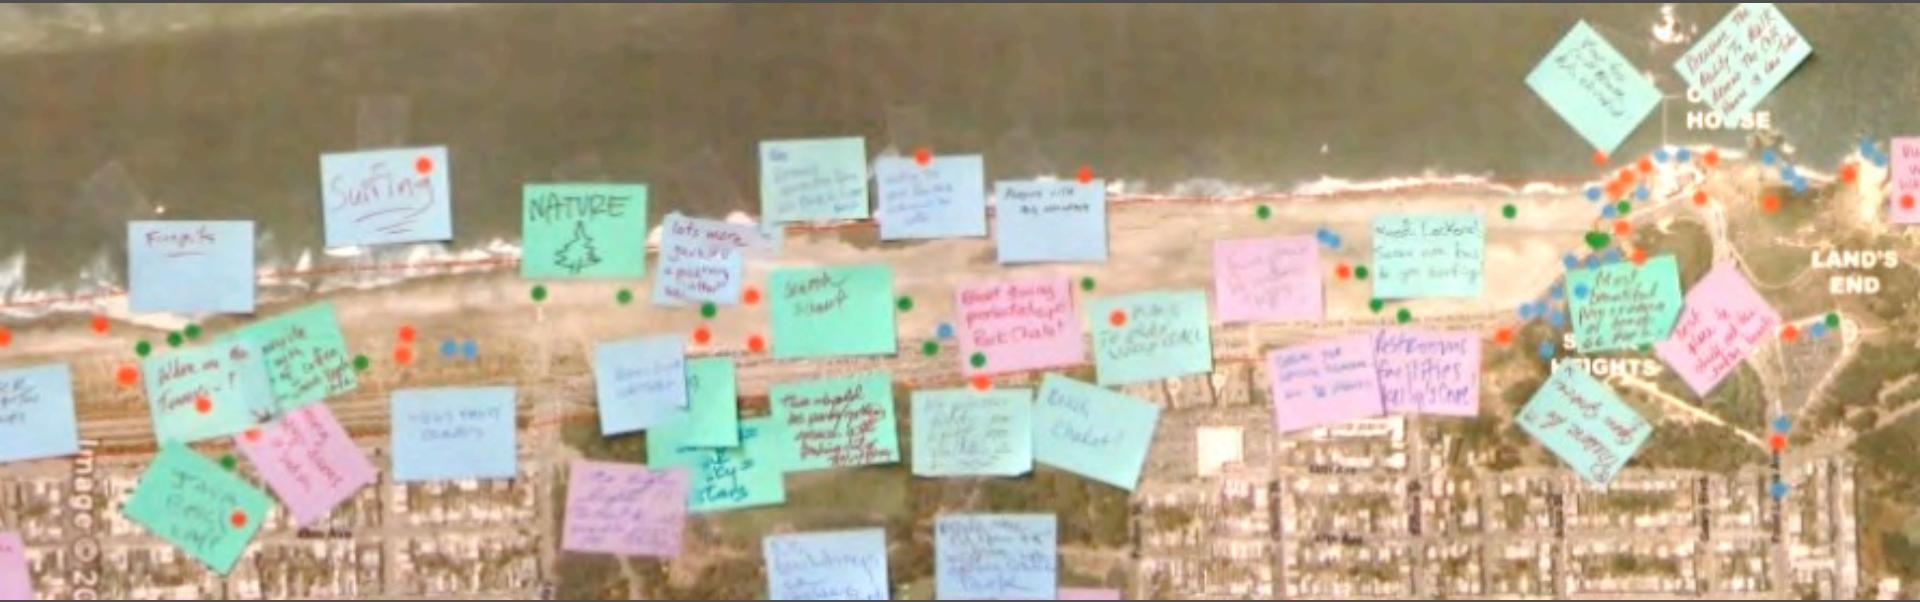

programs + amenities

user preferences

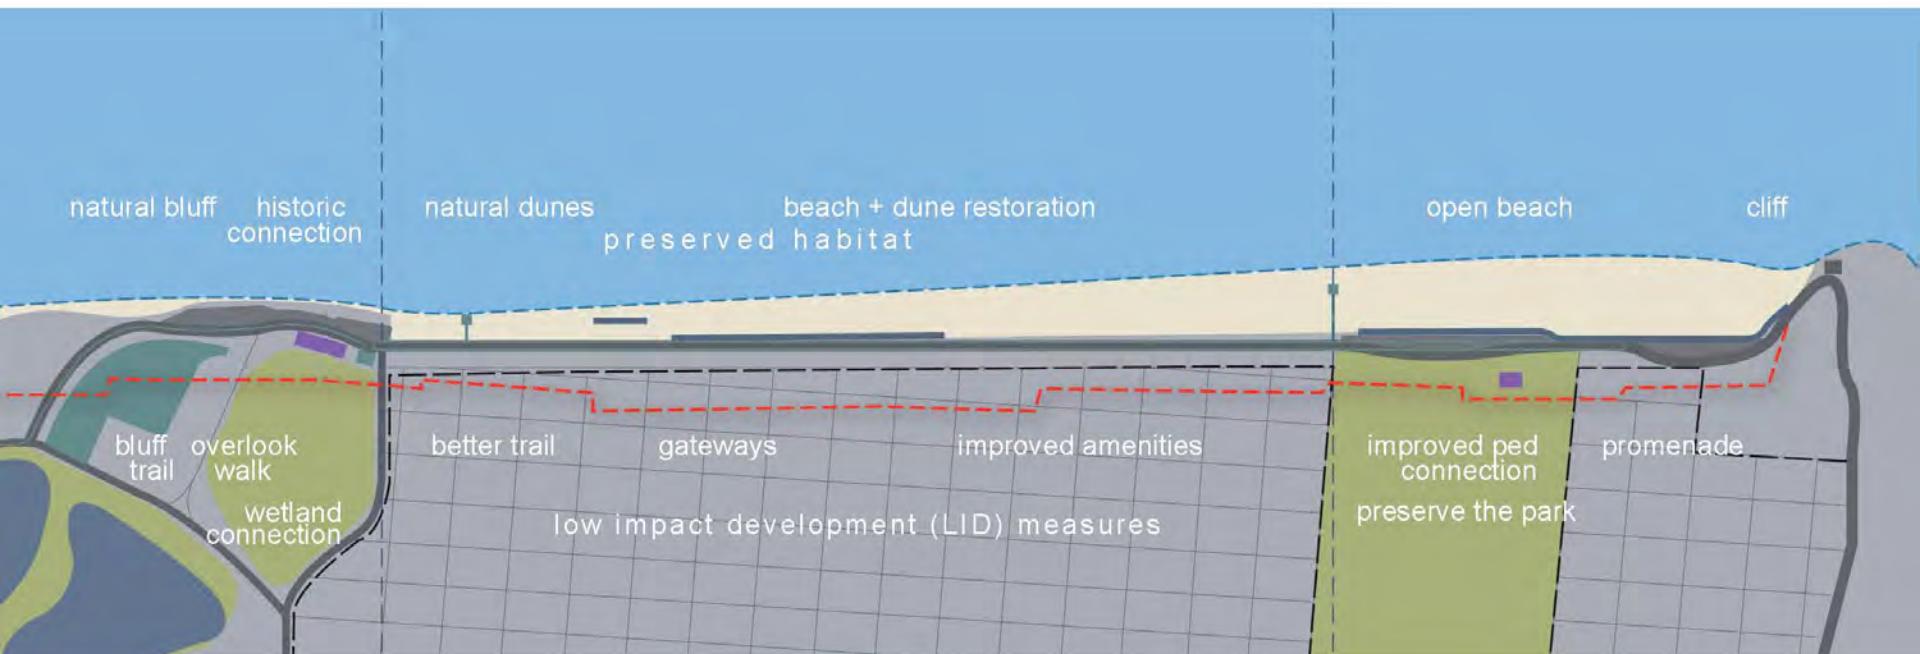

- what is your favorite place at ocean beach?
 - where is the best gathering place?
 - what is the best viewing spot?

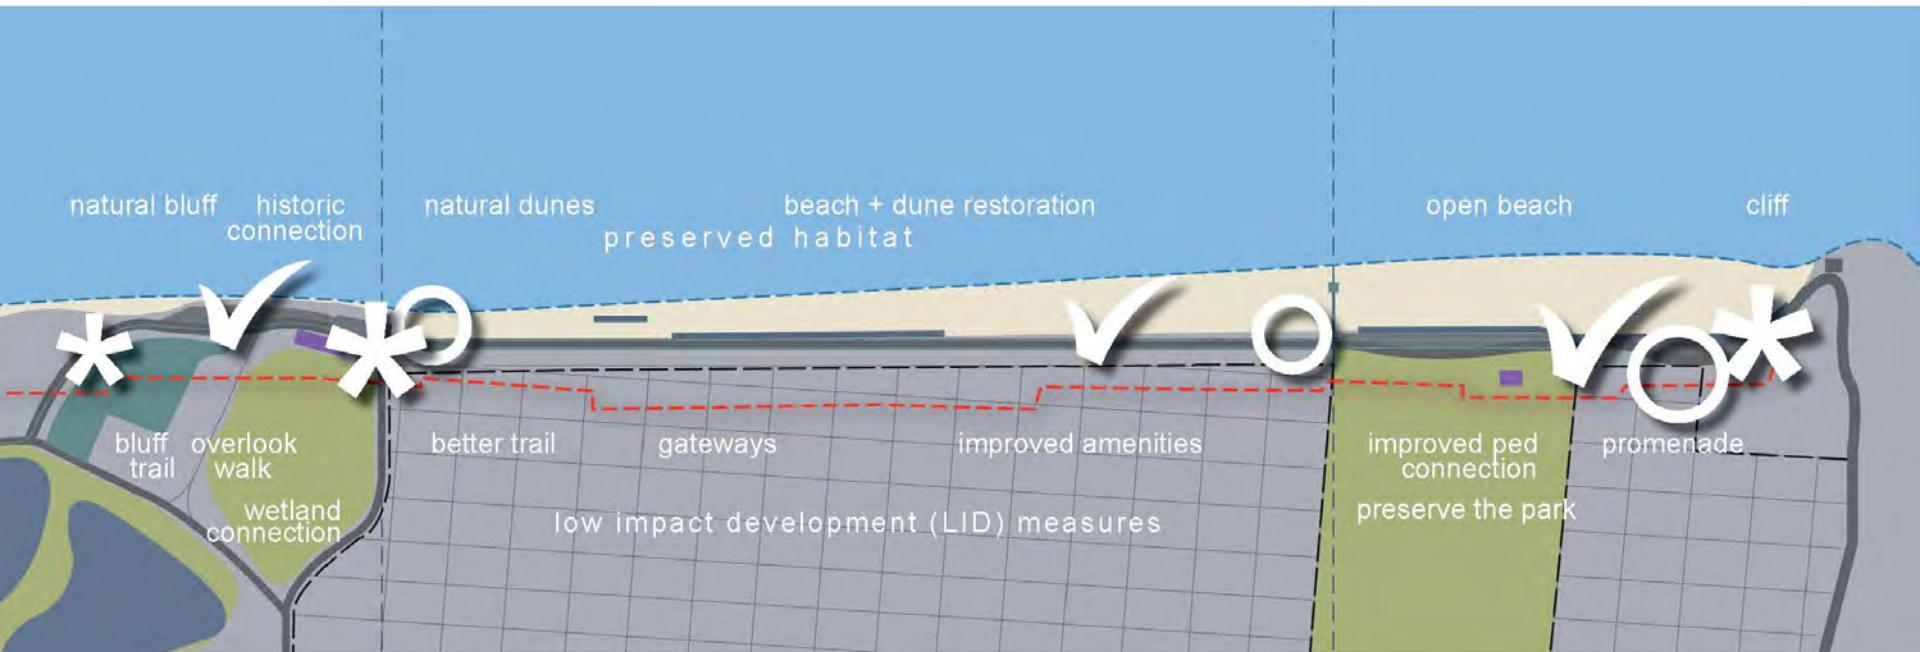

user preferences

- what is your favorite place at ocean beach?
- where is the best gathering place?
- what is the best viewing spot?

“natural” element

natural bluff historic connection

natural dunes

beach + dune restoration
preserved habitat

open beach

cliff

bluff trail
overlook walk
wetland connection

better trail

gateways

improved amenities

low impact development (LID) measures

improved ped connection
preserve the park

promenade

“social” element

“natural” element
